FEIF Riding Horse Profile Form for rider/buyer

Why to use a Riding Horse Profile?

Introduction

The horse profile forms (one for rider/buyer and one for a trainer to describe the horse) have been developed by FEIF as tools to help find the right horse for the right person.

The form the trainer uses to systematically describe the horse gives information about its qualities like character, riding abilities, education level and training conditions at a current moment tested.

THIS form is for the rider/buyer to discover the kind of horse she/he is looking for.

An educated and experienced trainer should help the rider/buyer fill in the form.

The FEIF Horse Profile is a guideline to help the rider/buyer to find the right horse for fun and safe riding. FEIF is not responsible for the outcome when using these forms.
